Adding widgets to the Website Designer

Zach W. - 2022-12-15 - Website Widgets

1. What is a widget? A Widget is a generic term for a bit of self-contained code that displays a program, or a piece of a program. The Widgets are grouped by similarity. Simply click on the group tab to see the widgets within.

2. When you have the group selected and you see the list of widgets you can mouse over the widget to see a preview of what the widget would look like by clicking on the **Magnifying Glass** icon.
