ClubRunner and GDPR

Michael C. - 2021-02-11 - Support

This document provides details on how ClubRunner has made improvements to help organizations become GDPR ready. We'll cover each area that changed or has enhanced functionality to comply with these changes. More information about GDPR itself can be found [here](#).

Privacy Policy

Every ClubRunner account now has a privacy policy page built into their website.

Organizations should take time to update their privacy policy as required. If the Club does not update their privacy policy, by default the ClubRunner privacy policy will display.

You can review ClubRunner's [privacy policy here](#).

For assistance with this new functionality, please review the [How to manage your Privacy Policy](#) article.

Cookies

ClubRunner uses cookies to help members stay logged in and make use of the website. We provide a dismissible cookie consent notice on the web page.

This website uses cookies to ensure you get the best experience on our website. [Learn more](#)

Got it!

Data Entry by Guests

ClubRunner requires affirmative consent when data is entered by guests (visitors who are not logged in) to the website. We'll cover each of the areas and show how this consent is collected.

Event Registration

Event Planner - registering guests

In the Event Planner module registrants will need to provide consent for each guest record entered in addition to their own before registration can be completed.

Guests

Please enter each guest's information and once all people have been added, click on the "Register all guests" button below.

First Name	<input type="text"/>	*
Last Name	<input type="text"/>	*

Members

Members of the organization are not required to provide consent to register themselves. If a staff member registers other members within the organization they are also not required to

provide consent.

Registering Guests

Consent is required for guests when members or staff are registering on their behalf.

Guests:

If you wish to bring along family members or friends, you may also register them by clicking on the 'Register Additional Guests' button below.

[Register Additional Guests](#)

Importing Contacts:

Import Contacts, Step 1

1 Upload the .CSV file with the contacts that you want to import

Select the .CSV file to upload: No file chosen

File Encoding:

Note: You can specify the encoding for the file you upload. If you do not know your encoding, leave the Auto value. If the result on the next step is not correct, reupload your file with different encoding. [Click here](#) for how to input valid information into Contacts CSV file.

Download Template

If you do not already have a .CSV file created (i.e from Outlook), here is a template you can use:

Template Example

Title	First Name	Last Name	Business Address1	Business City	Business State	Business Zip Code	Business Country	Cell	Email

2 Confirm that you have consent from all contacts

- I have received consent from each individual for the collection, storage and use of their information by Purple Metro as described in this [Privacy Policy](#). They understand that they may receive emails, and can opt out at any time. *

Friends of the Club

When members or staff add new Friends they'll be prompted to confirm that they have consent before it can be saved.

Notice

Part of the GDPR changes is providing notice that consent was received to store the information. When contact data is stored for the first time about an individual they will receive an email letting them know that some information was stored based on their approved consent.

Below is an example of the email they will receive.

Removal Requests

Should your organization receive a request to remove contact details from a non-member,

we've added a tool to help find and remove this data. This will ensure that the requestor's data has been removed except in cases where the organization has a "lawful basis" to retain the information. An example of a "lawful basis" would be data related to financial transactions in modules like MyEventRunner or Event Planner.
