Michael C. - 2021-03-12 - Contacts

When you add a contact to your contacts list, a profile page for that contact is automatically generated. Through this profile page you can edit the contact's information and privacy settings. You can also edit their group assignments. Follow the steps below to access a contact profile.

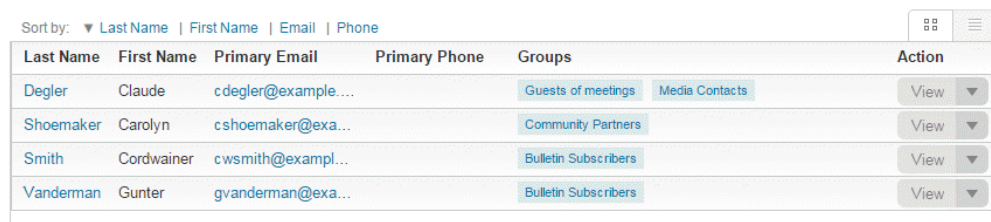

1. Log in to your website and access the member area. From the member area, click on the **Contacts** tab.

2. Now, click on the **Manage Contacts** link.

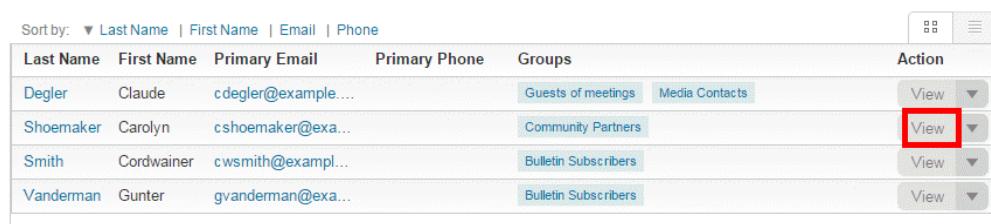

3. This brings you to the **All Contacts** page where you will see a list of all your existing contacts.

4. Select the contact you wish to edit, and click the **View** link under the **Actions** column. Alternately, you may click on the Contact's last name.
