## How do I register non-members in Event Planner?

Omar S. - 2021-03-22 - Events & Calendar

If you are the chair of an event you have the power to register non-members as special guests of your event. This function is useful for inviting family and friends, or special guests from the community. Club executives and members with administrator access can also do this. To register non-members, you must access **Event Planner**. 1. To access **Event Planner**, you must go to your club homepage and log in. Then, click on **Member Area** on the top right, under your club banner.

2. Along the top of the screen you will see several tabs. Click on the **Events** tab on the far right of the top toolbar.

3. At the left side of the screen, options will appear. Click on **Event Planner**.

4. You are now on the **Event Planner** page. Select the event for which you wish to register other members and click on the name of the event.

5. You are now on the **Event Services Page**, which outlines the details of the event and provides links to event tools. Just below the details is a shaded box labelled **Register**. This

section gives you as event chair the ability to register or decline members of other club for the event. Click **Register non-members**.

6. On this screen, you can see a summary of the event details, and a list of current guests, if any.
