How do I search for a member?

Michael C. - 2021-02-08 - Membership Management

You can search for members from your own club and or other clubs in your district using the district website.

1. Go to your district homepage and click on the **Member Login** link at the top right of the page. Then, enter your login details on the page that appears.
2. You are now logged in. To access the District Administration page, click on **Member Area** on the top right.
3. You are now on the **District Administration** page. Click the **Membership** tab just under the header.
4. Next, click on **Member Search**.
5. You are now on the **Member Search** page. Here you may search for members within your district by entering your search filter criteria. You are required to fill out at least one field to search on such as: name, club, email, etc before you can use the search option.

Note: The search filter options are searching for partial matches on an individual field level, and all filter options are added together.

Example: If you search for First Name: Jo, Last Name: Smith, all members names starting with Jo and a last name starting with Smith will be returned.

9. Your results based on your criteria will be shown below the search options. Clicking on the **plus icon** on any member in the results will allow you to view additional information.

Note: This search is limited by members privacy preferences. Members and/or specific parts of their information may not appear based on their preferences.
