

How do I send an email?

Michael C. - 2023-11-17 - Communication

ClubRunner has a built-in email feature that allows you to email fellow members and non members. Their email addresses are stored in ClubRunner so you do not have to know them.

You can access the **Email Message Center** from your club's home page. Here, you can compose emails and view the emails you have sent.

Note

Note: There is an limit of 500 past emails that will appear in the **Email Message Center** area.

Note

Note: The **Email Message Center** does not act as an inbox. To view messages you have received, you must access your personal email.

1. To access **Email Services**, you must go to your club homepage and log in. To do this please click the **Member Login** link near the top right.
2. After you enter your login name and password it will return you back to the Club's homepage. Click **Member Area** near the top right.
3. Along the top of the screen you will see several tabs. Click on the **My ClubRunner** tab.
4. Now, click on the **Email Message Center**.
5. You are now on the **Club Communication** screen. Here, you can compose emails and view emails you may have sent.

Note

Note: Only Club level access "30 - Site Administrator" can see "Show All Emails" and "Show My Emails Only". If any other member views this page it will only display their own emails.

The Nick Name merge field will be replaced by First Name if it is empty.

1. Your email is automatically generated with a greetings to the recipient that includes their first name and last name. You can change this information using the **Insert Mail Merge Fields** feature. This feature also allows you insert the recipient's name or other information in the body of the email.

The Nick Name merge field will be replaced by First Name if it is empty.

1. For example, if you wish to refer to your recipient by first name in the body of the email, select **Recipient First Name** from the Recipient menu and click the **Add** button at the appropriate point in your email. This adds a piece of code, which tells ClubRunner to insert the member's first name from your club database when the email is sent. The person who receives your email will see their name, and not the code.
