

## Mobile App - Change Log

Zach W. - 2024-04-25 - ClubRunner Mobile App

ClubRunner Mobile App Update 3.3.2 - Mar 21 2024

- Introducing Mobile Message Broadcasts for Districts: Keep your officers and staff updated with important announcements with push notifications!
- We've made improvements to how we handle limited data connections, this should result in being logged out less frequently in these situations.

ClubRunner Mobile App Update 3.3.1 - Feb 16 2024

- Improved the display of the Navigation Menu
- Improved how the app handles switching between interface languages
- Improved the Club Information page to include an option to open the menu for easy navigation
- Addressed an issue where event filter controls were not working as expected
- Addressed an issue that prevented scrolling in long stories

ClubRunner Mobile App Update 3.3 - Feb 02 2024

Introducing the latest version of the ClubRunner app, packed with new features and improvements to enhance your experience.

### **Manage Member Profile Information - basic member profile updates are now supported within the mobile app.**

- All members can now edit their own profile.
- Club officers are able to edit all their members' profiles.
- District executives can now edit the membership of all clubs.

## **Calendar & Event Improvements - new menu items to engage and participate in club and district activities**

- All Events: Keep track of all events from your club, local area and district seamlessly.
- Volunteer Signup Lists: Easily sign up for events with linked volunteer signup lists.

### **Additional Updates & Bug Fixes:**

- Quick access to club and district donation campaigns.
- Improved Navigation menu.
- Improved how time is displayed based on user language preference.
- Addressed an issue that caused the app to crash when launching it.
- Addressed an issue that prevented links in stories from opening.

ClubRunner Mobile App Update 3.2 - October 18 2023

### **District Search now supported!**

Introducing enhanced member search functionality! You can now effortlessly search for other club members within your district by name or email address within the app making connecting easier than ever.

### **Bug Fixes & Other Updates**

- Classification and Membership type are now shown in member profiles.
- On the log in page within the app, you can now reveal your password by clicking the eyeball icon on the password field, to confirm it's correct.
- Online Meeting details such as, meeting comments and link to join the meeting, are now available on the club information page.
- Improved how large fonts are displayed in the app.
- Addressed an issue that could prevent the phone dialer from launching, when contact permissions were not given.
- Addressed an issue to prevent deleted events from displaying on the calendar and event list.
- Addressed an issue where links to external pages in events did not work as expected.
- Addressed an issue that was preventing users from saving a member's contact

details to their device's contacts list.
